CYBER CRIME POLICE STATION (SPECIAL CELL)

GOVERNMENT OF NCT OF DELHI / NATIONAL CYBER CRIME REPORTING PORTAL (NCRP)

FIR Number: FIR-2026-402	**Date of Registration:** 14-Mar-2026 18:30 IST	**Police Station:** Cyber Cell Sector 62
Complainant: Dr. Ananya Sen (+91 9810123456)	**Victim Email:** ananya.sen.med@gmail.com	**Status:** ACTIVE INVESTIGATION
Offence Acts: BNS Sec 318(4), 319, 308(2) | IT Act Sec 66C, 66D | BSA 2023 Sec 63	**Investigating Officer:** Inspector Vikram Singh (Badge #4092)	**Total Defrauded Amount:** INR 28,50,000

1. COMPLAINT SUMMARY & FORENSIC FACTS

The complainant, Dr. Ananya Sen, Senior Oncologist residing at Noida Sector 50, reported that on **14-Mar-2026 at 02:05 IST**, her primary mobile phone (+91 9810123456) linked to her HDFC and ICICI Bank accounts suddenly lost cellular connectivity ('No Service'). Upon inquiry with the telecom operator, it was discovered that a *duplicate SIM card* had been issued at a franchisee in Ranchi, Jharkhand using forged Aadhaar credentials.

During this outage period between 02:14 IST and 03:45 IST, perpetrators logged into her NetBanking portals, intercepted multiple 2-Factor Authentication (2FA) SMS OTPs, and initiated unauthorized RTGS/NEFT/UPI fund transfers totaling **INR 28,50,000** across designated mule bank accounts. Primary beneficiary VPA was identified as **vicky.mule@icici** and secondary routing accounts were **cashout99@paytm** and **bunty.hawala@sbi**.

2. TABLE OF FRAUDULENT TRANSACTIONS (DISPUTED LEDGER)

Txn Ref ID	Timestamp (IST)	Amount (INR)	Beneficiary Account / VPA	Originating IP	Channel
HDFC90218491	14-03-2026 02:22:18	5,00,000	vicky.mule@icici	103.211.54.12	NetBanking IMPS
HDFC90218503	14-03-2026 02:28:44	9,50,000	bunty.hawala@sbi	103.211.54.12	RTGS Transfer
ICIC81729012	14-03-2026 02:35:10	4,00,000	cashout99@paytm	45.118.67.89	UPI Gateway
ICIC81729099	14-03-2026 02:49:05	10,00,000	mule.ranchi.ops@axis	45.118.67.89	NEFT Settlement

3. TECHNICAL FORENSIC FINDINGS & IMPOSSIBLE TRAVEL ANOMALY

Forensic analysis of server authentication logs reveals an **Impossible Travel Anomaly**: The primary victim session was hijacked from IP **103.211.54.12 (ISP: NetConnect Ranchi)** at 02:14:10 IST, and within 4 minutes and 35 seconds, consecutive administrative password change requests were submitted from IP **45.118.67.89 (Noida Datacenter VPN)**. Physical transit between Ranchi and Noida (~1,180 km) in this timeframe is mathematically impossible, proving coordinated multi-location proxy routing.

4. PRIMARY IDENTIFIED SUSPECTS & SEIZED ARTIFACTS

Suspect #1: Vicky Rawat (Phone: +91 9811223344, Email: vicky.rawat88@gmail.com). Seized OnePlus 11 handset (IMEI: 869402058192019) containing SMS OTP interception logs and WhatsApp mule coordination threads.
Suspect #2: Bunty Hawala (Phone: +91 9988776655). Account aggregator and cashout agent operating across Noida Sector 62. Seizure photo recorded at Lat 28.6270° N, Long 77.3725° E with recovery of 14 cloned SIM cards.

CERTIFICATE UNDER SECTION 63 OF THE BHARATIYA SAKSHYA ADHINIYAM (BSA), 2023
I, Inspector Vikram Singh, certify that the electronic records, system logs, and forensic extractions described in this case dossier have been collected, imaged, and verified using cryptographic SHA-256 integrity controls under continuous Chain of Custody. The computer systems and lawful interception gateways operated without error or malfunction during the period of observation.
